Know Exactly What You Need for Renewal

Every two years, the qualifying person (QP) for a Minnesota residential contractor or remodeler license must complete 14 hours of continuing education approved by the Minnesota Department of Labor and Industry.

14 Total DLI-Approved Hours

- 1** Energy Code Hour
- 1** Business Management Hour
- 12** Additional Approved Hours

Track Two Different Dates

Your company license renews on a two-year cycle ending March 31. Your Q registration has its own expiration date and may not match.

Complete your CE before the Q registration expires. Once all 14 approved hours are on record, DLI renews the Q registration automatically.

Explore Minnesota CE Requirements

Scan to visit our state requirements page for more information about contractor continuing education and renewal.

Cover Both Required Topics in One Course

Kaplan's 7-hour annual update course includes Energy and Business Management credit, so you can satisfy both required topic areas while completing half of your total hours.

Choose How You Learn with Kaplan

LIVE CLASSROOM

Learn face to face with an instructor and other Minnesota professionals.

LIVE ONLINE

Join a scheduled, instructor-led class from home or the office and ask questions in real time.

ONLINE VIDEO

Start, pause, and resume instructor-led lessons whenever your schedule allows.
